For nearly three decades, the Symposium on Advanced Wound Care (SAWC) has provided an event at which the interdisciplinary wound care community can gather, greet, learn, and play. Celebrating its 29th year in 2016, the SAWC has become the biggest and best wound care conference in the country. Our motto—One Vision, Many Faces, One Family—continues to guide us.

The SAWC is committed to providing the highest level of clinical education and information to physicians, podiatrists, nursing professionals, physical therapists, and allied health professionals dedicated to the advancement of wound care and healing, and we have been doing so for nearly 30 years. We continue to work toward a common goal: decreasing the quantity and severity of chronic wounds.

As we embark on our 8th annual SAWC Fall, we are pleased with the continued success of this great tradition. SAWC Fall will offer over 40 new clinical sessions, and host a major exhibition of products and services for wound care professionals. We sincerely hope you will join us in Las Vegas October 7–9, 2016 for what will be a rewarding experience.

ROBERT S. KIRSNER, MD, PHD
Chairman & Harvey Blank Professor
Department of Dermatology & Cutaneous Surgery
University of Miami Miller School of Medicine
Miami, FL

DOT WEIR, RN, CWON, CWS
Osceola Regional Medical Center
Kissimmee, FL
Health Central Hospital
Ocoee, FL

Spend a weekend in Las Vegas while accruing some CME/CE/CECHs at the Symposium on Advanced Wound Care (SAWC) meeting, the world’s largest multidisciplinary conference dedicated to the advancement of wound care and healing.

SAWC Fall serves as a forum to connect the entire wound care team—physicians, nursing professionals, podiatrists, physical therapists, researchers, scientists, and dietitians.

20+ CME/CE/CECHs
40+ SESSIONS
80+ FACULTY
100+ EXHIBITORS
1,300+ PARTICIPANTS

AMAZING VALUES AND DISCOUNTS FOR THOSE WHO REGISTER EARLY!

By registering in advance for SAWC Fall in Las Vegas, NV, wound care professionals can take advantage of numerous benefits including:

- Unrestricted access with the Maximum Value Package (see page 6)
- Heavily discounted hotel rooms at our host hotels in Las Vegas (see page 14)
- Up to a 10% discount on airfare

OCTOBER 7–9, 2016
CAESARS PALACE
LAS VEGAS, NV

20+ Wound Care Credits with a Side of Vegas!

Celebrating our 21st year as an Association, we welcome you to SAWC Fall, the official meeting of the Association for the Advancement of Wound Care (AAWC). AAWC is the largest professional, multidisciplinary, membership organization in the United States dedicated to interprofessional wound healing and tissue preservation. AAWC’s mission is to advance the care of people with and at risk for wounds. The Association promotes excellence in education, clinical practice, public policy, and research.

Members of AAWC have the added advantage of discounted registration fees to attend SAWC Spring and SAWC Fall. These discounts can more than cover annual membership dues. At SAWC Fall, we are pleased to offer niche sessions, including AAWC Speaker Training, AAWC Research Poster Grand Rounds and AAWC Global Volunteers.

Other benefits of AAWC membership through the year include leadership and networking opportunities, legislative and regulatory alerts, automatic subscriptions to two premier wound care journals (Ostomy Wound Management and WOUNDS), and more. Become a member today at aawconline.org to open the door to a whole year of valuable benefits!

VICKIE R. DRIVER, MS, DPM, FACFAS
AAWC Chair and Past President of the AAWC Conference Planning Panel
Professor of Orthopedic Surgery, Brown University School of Medicine (clinical) Director, Translational Medicine Novartis Institute for Biomedical Research Cambridge, MA

GREGORY BOHN, MD, FACS,
ABHM/UHM, FACHM, CWSP
AAWC Co-Chair and President of the AAWC Conference Planning Panel
West Shore Medical Center for Wound Care and Hyperbaric Medicine
Mariners, MI

SAWC Fall offers education that is of interest to the interdisciplinary wound prevention and healing team throughout the continuum of care and across all practice settings. The meeting features several distinct tracks tailored to your educational needs and interests.

**Educational Collaboration with the Society for Vascular Medicine and the Amputation Prevention Symposium**

Vascular diseases account for most of the morbidity and mortality in the United States. In addition to the commonly appreciated stroke, myocardial infarction and venous thromboembolism, the field of vascular medicine encompasses a broad spectrum of arterial, venous, and lymphatic disorders—all commonly identifiable risk factors of many types of wounds. In this regard, SAWC has partnered with the Society for Vascular Medicine (SVM) and the Amputation Prevention Symposium (APS) to stimulate collaboration between the vascular and wound care community to improve overall outcomes for patients with wounds resulting from vascular disease. Through the partnership, SVM, APS, and SAWC seek to improve the prevention, early detection, treatment, and rehabilitation of people with peripheral arterial and venous disease through continuing medical education at the SAWC Fall meeting.

**About the Society for Vascular Medicine**

The Society for Vascular Medicine is a professional organization that was founded in 1989 to foster a broad mission: education, accreditation, advocacy, and research with the ultimate goal of improving outcomes for patients with vascular disease. SVM is the national organization that brings together vascular specialists from many disciplines to address issues regularly. Topics include reimbursement, the impact of stress on wound healing, novel management, therapeutic, rehabilitative, or skilled nursing care. Topics in this track will include sessions on nutrition and age as they relate to wound healing, physical therapy, home care, forensics, and more.

**Wound Care Essentials for the Best Value**

- Convenient 2-day format
- Up to 17 CME/CE/CECHs
- Interdisciplinary approach with top faculty
- 94% average pass rate for the CWCA®, CWS®, and CWSP® exams

*You must submit your completed exam application, payment, reference letters and all documentation to the American Board of Wound Management by September 16, 2016 in order to schedule your certification exam after the WCPC course in Las Vegas. There is limited availability so please submit your completed application as soon as possible.*

**Learning Objectives**

- Identify new issues and barriers to wound healing, and potential interventions to overcome these barriers
- Discuss the implications of reimbursement on the wound care team and the need for optimal follow-up care
- Identify the anatomy of the skin and other factors that impact wound healing
- Investigate critical elements associated with proper documentation to the American Board of Wound Management by September 16, 2016 in order to schedule your certific
MVP registration includes:

- Unrestricted access to more than 40 educational activities over 3 days
- Access to pre- and post-conference sessions
- Opening night reception
- Lunch and continental breakfast for two days
- Three days of the premier exhibit hall in wound care
- Exhibitor guide
- SAWC Fall tote bag and t-shirt
- Chronic Wound Care: The Essentials (book)
- Access to SAWC Fall 2016 On-Demand
- Abstract book

Max out your CE potential — choose the MVP option today.

MVP is Valuable to Your Employer Too!

Apply to your facility to financially support your attendance at SAWC Fall. Let administration know you’ll be seeking in-service credits gained at the conference with your wound care coworkers and will pass along the educational giveaways you’ll receive as an MVP.

Package available only until August 14, 2016.

THURSDAY, OCTOBER 6

2 CONCURRENT SESSIONS

1:00 PM—5:00 PM

Pre-Conference: Compression and Offloading
Moderator/Presenter: Jeffrey D. Lehman, DPM, FAPS, FAPWCA, AAWPRA
Compression and offloading are mainstays in managing lower extremity wounds. Lecturers will hone in on the evidence and the role of compression therapy for edema resulting from central organ failure, venous hypertension, mixed arterial and venous disease, and lymphedema; current medical treatment of lower extremity edema; and offloading for wound healing in the diabetic foot. The interactive, hands-on workshop portion of the session will demonstrate the application of an assortment of compression and offloading modalities.

Pre-Conference 2: Wound Assessment: Tools and Techniques
Moderator/Presenter: Shaun Carpenter, MD, MSIP, FAPWCA
Presenter: Todd Shaffert, APRN, NP-C, CWOCN
There are a variety of tools and techniques in wound care that can be utilized to assess a wound. These vary depending on whether the wound is acute or chronic. Additionally, depending on the etiology of the chronic wound (pressure, venous or arterial disease, or diabetes), different assessment methods will be used to properly diagnose and effectively heal the wounds.

Industry-Supported Symposium
6:30 PM—8:00 PM

FRIDAY, OCTOBER 7

4 CONCURRENT SESSIONS

1:00 PM—5:00 PM

Industrial-Supported Symposium
7:30 AM—9:00 AM

Opening Ceremony
9:10 AM—9:40 AM

Keynote Address: Running Towards Chaos
NON-ACREDITED/NON-APPROVED FOR CECH
3:40 PM—4:00 PM

Speaker: Natalie Stavas, MD

On April 15, 2013, Natalie Stavas, MD, had just run 26 miles and was about to finish the Boston Marathon when the unimagined explosion exploded at the finish line. Instead of turning and running away with the crowd, Dr. Stavas ran towards the chaos and saved four lives. Stavas attacks every challenge that which you fear, that which challenges you, that which is oppositional.” At SAWC Fall 2016, Stavas will share her experience as a first responder, and what ultimately led her to make that fateful decision to run into a terrorist attack.

Register Early & Save
www.sawcfall.com

Industry-Supported Lunch Symposium
12:10 PM—1:40 PM

4 CONCURRENT SESSIONS

1:50 PM—2:50 PM

SESSION 1

Unraveling the Complexities of Edema
Moderator/Presenter: Sandra Rosenbarg, MD, FAPWCA, FACS, ABWMS
Speaker: Mary O’Keefe, APRN, CNP, CWCN
Swelling is a major impediment to wound healing. Numerous medical conditions can contribute to this problem. This session will present a simple mnemonic that helps the wound care provider to classify and consider the multiple and complex reasons why edema occurs. The provider can then access and determine the appropriate treatment and develop optimal plans to modify when necessary.

SESSION 2

Comprehensive Treatment of PAD & VENOUS DISEASE

Limb Swelling: Diagnostic Evaluation and Management
Moderator/Presenter: Ernie M. Muller, MD
Speaker: Raghu Kolluri, MD
Although limb swelling is typically attributed to a singular etiology (e.g., PAD), many pathophysiological causes often exist. The diagnosis and treatment of swelling can be a challenge for clinicians. This session will discuss how to clinically approach a swollen limb, what tests to utilize, and how to appropriately manage and reduce swelling.

SESSION 3

Device and Medical Adhesive-Related Skin Injuries
Moderator/Presenter: Laurie McEachin, MSN, RN, GNP, CRN
Speaker: Dorothy Doughty, MSN, RN, PNP, CRN
Two additions to scientific nomenclature are impacting clinical conversations, and both require in depth understanding to ensure patient safety. Medical device-related skin injury (MARSI) is occurring with increasing frequency. Medical adhesive-related skin injury (MARSI) often occurs through improper selection, application, or removal of medical adhesives. Attend this session to learn more about each, and hone your skills in developing a preventive plan of care.

SESSION 4

Advanced Treatment of Difficult Wounds

Atypical Wounds: From Podyderma Gangrenosum to Hidradenitis Suppurativa
Moderator/Presenter: Ashley Adams, MD, MBC
Speaker: Michelle L. Lowis, MD, PhD
Many clinicians are experts in the diagnoses commonly seen in wound care. How many wounds are misdiagnosed or undiagnosed because they look like a common chronic ulcer? This session will discuss a variety of atypical wounds such as podyderma gangrenosum and hidradenitis suppurativa among others. Clinicians will leave this session better equipped to recognize these atypical wounds and intervene quickly, which will improve clinical outcomes for their patients.

SESSION 5

Outpatient Care of Wounds

Advances in Diabetic Foot Ulcers
Moderator/Presenter: John Steinberg, DPM, FAPWCA
Speaker: Javier La Fontaine, DPM
Many people with diabetes develop foot ulcers, which can be severe, chronic, and painful. This lecture will discuss the serious nature of foot ulcers in patients with diabetes, and review recent advances to assist wound care professionals in treating these non-healing wounds.

SESSION 6

Treatment of Edema Using Pneumatic Compressive Devices: Feeling the Pressure to Achieve Success
Moderator/Presenter: William H. Walls, MD, FACS
Speaker: Dorothy Doughty, MD, FAPWCA
Effective management of edema requires proper evaluation and diagnosis to treat the underlying disorder. This session will discuss the use of pneumatic compression devices (PCDs) for edema, including when to appropriately use them, the clinical-economic impact of use, as well as any potentially adverse outcomes.

SESSION 7

Predicting and Preventing Pressure Ulcers: What We Have Learned, Where Do We Go From Here?
Moderator/Presenter: Nancy Bergstrom, PhD, RN, FAPWCA
Speaker: Caroline Fiore, MD, CWOCN, FAPWCA
The Braden Scale has been in use for three decades, and may be one of the most validated tools for pressure ulcer risk assessment in patients. However, pressure ulcers continue to be a significant clinical problem with substantial medical and financial implications. What have we learned in the past 30 years about risk assessment, and where do we go from here?

SESSION 8

Advanced Treatment of Difficult Wounds

Practical Considerations When Using Tissue-Based Products
Moderator/Presenter: Susan Searman, RN, MS, CRN
Speaker: Jeffrey D. Lehman, DPM, FAPS, FAPWCA, AAWPRA
There are plethora of tissue-based products available for use with various chronic wounds. They vary in preparation of the product, application, site of application (clinics vs. operating room), method of securement, use of bolsters/dressings, and frequency of reapplication. This session will review the practicalities of using these products with multiple case examples of their use.
All wounds are not equal. It is essential to treat each wound individually in order to create the optimal conditions for wound healing. Without proper treatment, these acute wounds can lead to complications, including poor healing and infection. This session will discuss ways to prevent acute wounds from becoming chronic through the use of evidence-based approaches.

Medical Comorbidities and Their Impact on Wound Healing: What’s Modifiable to Help Healing?
Moderator/Presenter: Lee C. Ruotsi, MD, PhD
Lee C. Ruotsi, MD, PhD
All wounds are not equal. It is essential to treat each wound individually in order to create the optimal conditions for wound healing. Without proper treatment, these acute wounds can lead to complications, including poor healing and infection. This session will discuss ways to prevent acute wounds from becoming chronic through the use of evidence-based approaches.

The Diabetic Ulcer is Healed, Now What?
Moderator/Presenter: Charles Kuffel, MD, CWS, FAAP
Charles Kuffel, MD, CWS, FAAP
All wounds are not equal. It is essential to treat each wound individually in order to create the optimal conditions for wound healing. Without proper treatment, these acute wounds can lead to complications, including poor healing and infection. This session will discuss ways to prevent acute wounds from becoming chronic through the use of evidence-based approaches.

ADVANCED TREATMENT OF DIFFICULT WOUNDS
Evidence-Based Approaches to Optimizing Acute Wound Healing
Moderator/Presenter: Robert S. Krinsky, MD
Robert S. Krinsky, MD

A Surgical and Endovascular Team Approach to Limb Salvage
Moderator/Presenter: George Plagis, MD, MFS, FCPS, FASB, FACS, Jeffrey Wang, MD, FACS
George Plagis, MD, MFS, FCPS, FASB, FACS, Jeffrey Wang, MD, FACS

Endovascular reenvascularization has gained significant momentum as a safe and effective method for treatment of the complex CLI patient with multiple comorbidities. However, surgical-first and hybrid approaches remain the treatments of choice in many clinical scenarios. This session will focus on learning how to determine the first approach to consider.

AARC Research Poster Grand Rounds
Moderator/Presenter: Linda Cowan, PhD, AMP, FNAP, CWOCN
Linda Cowan, PhD, AMP, FNAP, CWOCN
As the name implies, the AARC Research Poster Grand Rounds is a monthly session where attendees assemble at one of five AARC educational posters and are given a brief fact sheet about how to present an effective research poster. Afterward, attendees are escorted to 1-3 specially selected posters that have been submitted in advance by poster presenters for AARC critique. Attendees will learn how to present clinical research in a format that helps to identify obstacles to healing, and identify potential interventions to overcome these obstacles.

Outpatient Care of Wounds
Novel Technologies for Wound and Vascular Assessment: Thermography, Angiography, and Sonography
Moderator/Presenter: John Larkin, II, MD, FACS
John Larkin, II, MD, FACS

With advances in wound management, clinicians are presented with a broad array of technological interventions that can facilitate healing in wounds and vascular assessment. Novel technologies such as thermography, angiography, and sonography are being used in assessment. This session will take an in-depth look at the use of these novel technologies in the wound care setting.

The “Under Pressure” Debate: Does Pressure Ulcer Staging Help Patients or Lawyers?
Moderator/Presenter: Karen Kennedy-Evans, RN, INP, APN-BC
Karen Kennedy-Evans, RN, INP, APN-BC
The National Pressure Ulcer Advisory Panel held a consensus conference in April 2016 to discuss and resolve the current pressure ulcer staging system. Current evidence suggests that pressure ulcers are full-thickness injuries with varying cutaneous manifestations. This panel session will debate the need for a staging system, and discuss whether the use of a linear staging model truly helps clinicians and patients, or if it makes them overly vulnerable to litigation? If we know pressure ulcers are full-thickness injuries, do we need a staging system at all?

ADVANCED TREATMENT OF DIFFICULT WOUNDS
The Effects of Aging on Wound Healing
Moderator/Presenter: Lisa Gould, MD, PhD
Lisa Gould, MD, PhD

Advanced age is a clear risk factor in poor healing. As more baby boomers age, concerns of the effects of aging on wound healing increase. This session will discuss the importance of understanding age-related impairments to wound healing and how to overcome those hurdles.
2 CONCURRENT SESSIONS
11:20 AM – 12:20 PM
Non-Medical Industry-Supported Symposia

3 CONCURRENT SESSIONS
2:00 PM – 3:00 PM
Home Alone: Lessons from Home Care Wound Providers on Managing Complex Wounds
Moderator/Speaker: Marla Duerr, RN, BSN, MA/G
Complex wound care challenges the knowledge of the clinician, requires access to resources, creativity and the development of a well-communicated holistic plan of care. This session will describe considerations for managing complex wounds in the home setting, while providing valuable care and wound clinic providers with recommendations for successful transition of care.

REGISTER EARLY & SAVE

WEDNESDAY, OCTOBER 5, 2016
Wound Certification Prep Course™ (additional fee apply)
11:00 AM – 5:00 PM
Wound Certification Prep Course™/Wound Clinic Business (additional fee apply)
4:30 PM – 8:00 PM
Industry-Supported Dinner Symposia

THURSDAY, OCTOBER 6, 2016
Pre-Conference 1: Compression and Offloading (additional fee apply)
1:00 PM – 5:00 PM
Pre-Conference 2: Wound Assessment Tools and Techniques (additional fee apply)
6:30 PM – 8:00 PM
Post-Conference Reimbursement (additional fee apply)

FRIDAY, OCTOBER 7, 2016
SESSION 43
10:00 AM – 3:20 PM
Track 1: Post-Acute Care
1. Predicting and Preventing Pressure Ulcers: What Do We Know? What Can We Do?
2. Practical Considerations When Using Pressure-Reducing Bed Pads
3. Unveiling the Complexity of Edema
4. Link Smoking: Diagnostic Evaluation and Management

SESSION 44
10:30 AM – 3:15 PM
Track 2: Advanced Treatment of Difficult Wounds
5. Source Documentation: Surgery to Site
6. Cloth, Clinical, and Care Pathway
7. Advise in Diabetic Foot Ulcers
8. Treatment of Edema Using Pharmacologic Compression Devices: Focusing the Pressure to Achieve Success
9. Pharmacokinetics

SESSION 45
9:00 AM – 2:00 PM
Track 3: Current Treatment of Wounds
10. The Recipe for Success in Nutrition and Wound Healing
11. Optimizing Acute Wound Healing
12. Inflammation: The Key to Achieving Wound Healing
14. Mixed Arterial and Venous Disease: How Do We Approach It?

SESSION 35
12:10 PM – 1:40 PM
Industry-Supported Lunch Symposia

SESSION 36
1:40 PM – 2:00 PM
Special Session: Keynote Address

SESSION 37
2:30 PM – 3:10 PM
Poster Session 1: Posters are open from 8:00 AM to 9:00 AM. Poster presentations will attend the Poster Reception

SESSION 38
9:00 AM – 5:30 PM
AAWC Membership Meeting

SESSION 39
9:30 AM – 1:45 PM
AAWC Business Meeting

SESSION 40
9:30 AM – 1:45 PM
Poster Session 2: Presenters are open from 9:00 AM to 12:00 PM. Following the orientation...
SAWC Fall takes place at Caesars Palace Las Vegas. Register early and book your hotel when your registration process is complete.

Airline Discounts & Reservations
Airfare discounts from 5%–10% for SAWC Fall participants are available through various airlines. Discounts are valid on travel from October 4, 2016 to October 19, 2016. Book your flight by contacting United Airlines:

- United Airlines 800-521-4041
- Delta Airlines 800-428-4362

Airport Transportation
AExpress Airport Transportation Services offers cost-effective transportation services between McCarran Int’l Airport and your hotel. Non-Stop Express Service Available for $8 per person. One-way fare – Immediate Boarding — On-Site Airport Staff Executive Coach

Round-trip fare (Express Non-Stop Service): $35 per person
Round-trip fare (Economy + 1 Stop Service): $22 per person

One-way fare (Express Non-Stop Service): $18 per person
One-way fare (Economy + 1 Stop Service): $11 per person

Limousine Service
Round-trip fare (Sedan – 3 passengers): $50 per Sedan
One-way fare (Sedan – 3 passengers): $30 per Sedan
Round-trip fare (SUV – 5 passengers): $80 per SUV
One-way fare (SUV – 5 passengers): $50 per SUV
